Subject.: Management Representation Letter (MRL) covering the 2024 final accounts of the Euratom Supply Agency (ESA)

Dear President,

This representation letter is provided in connection with your audit of the final accounts¹ of the Euratom Supply Agency (ESA) for the financial year ended 31 December 2024 for the purpose of expressing an opinion as to whether these present fairly, in all material respects, the financial position of the Euratom Supply Agency (ESA) at 31 December 2024, the results of its operations, its cash flows, and the changes in net assets for the year then ended.

In line with Article 77 of the Financial Regulation (FR)², the accounting systems laid down by the Accounting Officer and, where appropriate, the systems laid down by the Authorising Officer to supply and justify accounting information have been validated.

¹ The annual accounts consist of the "financial statements" and the "budget implementation reports". The "financial statements" comprise the balance sheet, the statement of financial performance, the cash-flow statement, the statement of changes in net assets and the notes to the financial statements.

² Regulation (EU, Euratom) No 2024/2509 of the European Parliament and of the Council of 23 September 2024 on the financial rules applicable to the general budget of the Union (recast).

All the information necessary for the production of the final annual accounts of the Euratom Supply Agency (ESA) which gives a true and fair view of the assets and liabilities and of the budget implementation has been obtained from the authorising officer and the authorising officers by delegation of the Euratom Supply Agency (ESA), who had guaranteed its reliability.

We confirm, to the best of our knowledge and belief, having made such inquiries as we considered necessary for the purpose of appropriately informing ourselves, the following representations:

Final accounts

1. The final accounts of the Euratom Supply Agency for the financial year ended 31 December 2024 referred to above are presented in accordance with its Financial Regulation and the accounting rules and methods established under our responsibility. These accounting rules that we have adopted are based on internationally accepted accounting standards for the public sector: there is no material divergence requiring disclosure in the notes to the financial statements under Article 80(2) of the Financial Regulation.
2. No issues requiring a reservation have been brought to our attention.
3. The methods, the data, and the significant assumptions used in making accounting estimates, including those measured at fair value, and their related disclosures are appropriate to achieve recognition, measurement or disclosure that is reasonable in the context of the accounting rules and internationally accepted accounting standards for the public sector.
4. Related party relationships and transactions have been appropriately accounted for and disclosed in accordance with the requirements of the accounting rules.
5. All events subsequent to the date of the accounts and for which the accounting rules and methods require adjustment or disclosure have been adjusted or disclosed.
6. Not applicable: The effects of any uncorrected misstatements, summarised in the accompanying schedule, are immaterial, individually and in aggregate, to the financial statements as a whole. (N.B. Only if applicable for the final accounts)
7. There are no plans or intentions that may materially alter the carrying value or classification of assets and liabilities reflected in the financial statements. The carrying value of receivables and recoverable, which are potentially irrecoverable, has been corrected where necessary.

8. All types of assets have been reviewed for impairment whenever events or changes in circumstances indicate that their carrying amount may not be recoverable. Where appropriate, such assets have been written down to their recoverable amount.

9. The Euratom Supply Agency has satisfactory title to all assets and there are no liens or encumbrances on the assets.

10. All liabilities, both actual and contingent³, have been recorded or disclosed, as appropriate, and all guarantees that have been given to third parties have been disclosed in the notes to the financial statements. We have informed you of all outstanding and possible claims, whether or not they have been discussed with legal counsel.

11. All claims against the Euratom Supply Agency are reflected in the financial statements as a provision or, where relevant, as a contingent liability.

12. There are no formal or informal compensating balance arrangements with any of our cash and investment accounts. There are no lines of credit arrangements.

13. There have been no significant errors or misstatements, or changes in accounting policies that would require a restatement of the amounts from the financial statements for the year ended 2023 which are shown as comparative amounts in the financial statements for year ended 2024. Any differences in the comparative amounts from the amounts in the financial statements for the year ended 2023 are solely the result of reclassifications for comparative purposes.

14. Information regarding financial risks exposure and our financial risk management objectives and policies has been adequately disclosed in the financial statements.

15. The effects of the Russian war of aggression against Ukraine on the final accounts of the Euratom Supply Agency have been assessed and are appropriately accounted for and disclosed in accordance with requirements and accounting rules.
